

THE MICATO **BESPOKE ADVENTURES**

PRIVATE ADVENTURE BY PRIVATE PLANE

PILOTED BY RENOWNED SAFARI GUIDE MARK C. ROSS

Explorer extraordinaire, legendary safari guide, biologist and pilot, Mark Ross has written the book on the world of African predators—quite literally. One of the books he penned, *The Micato Safaris Guide to Predators*, is a riveting volume of the continent's carnivores. An American by birth, Mark adopted the wide savannahs of Africa as his home over twenty years ago and has since become a recognized expert in wildlife and safari. So much so, in fact, that his books are amongst the most widely read on East African travel, and Animal Planet and *National Geographic* consult with him. Mark's work was included in *The Best American Travel Writing 2000*, and he is an expert wildlife photographer as well.

So who better to take you on a private, customised wing safari of Africa? With Mark as your personal pilot and safari guide, you'll gain keen insights from his twenty-odd years of flying these untamed wilds, combined with his encyclopedic knowledge of animal behaviour from his training as a wildlife biologist. Not to mention his personal stories that will have you on

the edge of your comfortable seat: thrilling tales of bravery, adventure and discovery...the stuff of true safari lore!

Simply choose a region of Africa and its wonders will unfold before you—dramatically, comfortably and conveniently. Maybe you'd like to explore East or Southern Africa's famed game-parks or perhaps combine them with some lesser-known gems to which Mark is privy. Accommodations can be as luxurious or as adventurous as you please (or both), from Mark's own seasonal tented camps to the most splendid, exotic safari lodges imaginable.

With a world-renowned safari guide, a personalised itinerary and the private wings to move as you please, Micato's Private Adventure is like having an insider's pass to Africa's most beguiling wilds.

Rates from \$36,000 per person for 14 days
