

## Best Grandparent-Grandchild Getaways

Excerpted from an [article](#) by Irene S. Levine

Safaris are a bucket list item for most grandparents and a dream trip for grandchildren; they offer unparalleled opportunities to see wildlife while learning about different cultures and conservation from local guides.

**One itinerary — among many in Africa and India offered by tour operator Micato Safaris — is the 15-day Micato Grand Safari in Kenya and Tanzania.** Guests get to visit a conservancy to learn about rhino conservation; meet local Maasai; and visit Ngorongoro Crater (one of the world’s largest watering holes). There’s also horseback riding, camel treks, hot air balloon rides and game drives. In addition to luxury tented camps, the itinerary includes a stay at the Four Seasons Serengeti Safari Lodge that has a world-class kids’ club.

Many grandparents are eager to promote the values of voluntourism and cross-cultural understanding. Through AmericaShare, **Micato puts one child through school for every safari sold.** Its one-day “Lend a Helping Hand on Safari” add-on enables both generations to interact with local children living in Nairobi.
